in the palace? If you are in
possession of this baby, you
must roleplay feeding it in the
kitchens every half an hour. If
you fail to feed the baby, run
while carrying it, or engage in
combat, give this item to an
NPC and tell them to open it.
You may voluntarily give the
baby to an NPC to take to the
palace nursery after 1 hr of
care.

A Baby
268

This mer baby has not been well taken care of. Roleplay a nurse from the palace nursery who is very upset by this. You should berate the player soundly for being neglectful, preferably in front of as many others as possible, and then take the baby out of game.
